

FLOATS FACTORY CATALOGUE

FLOATS FACTORY CATALOGUE

MOCHKOV is what began as a small family business in 1973. Since then, we continue to grow and expanded to 25 employees and 1000 sqm facility, equipped with the most modern technology, which makes our factory 70% automated, allows us to manufacture all and any models upon customer's specifications.

Our product exceeds the standard quality of others. All throughout the years, we have developed special paints and technics and we continue to search for high quality raw materials throughout the world.

All of our products are vigorously tested for exact weight, size and performance. Our special "competition floats" series are developed and innovated in conjunction with our sponsored fishing team.

Been a customer service oriented firm, we are able to exceed our client's expectations.

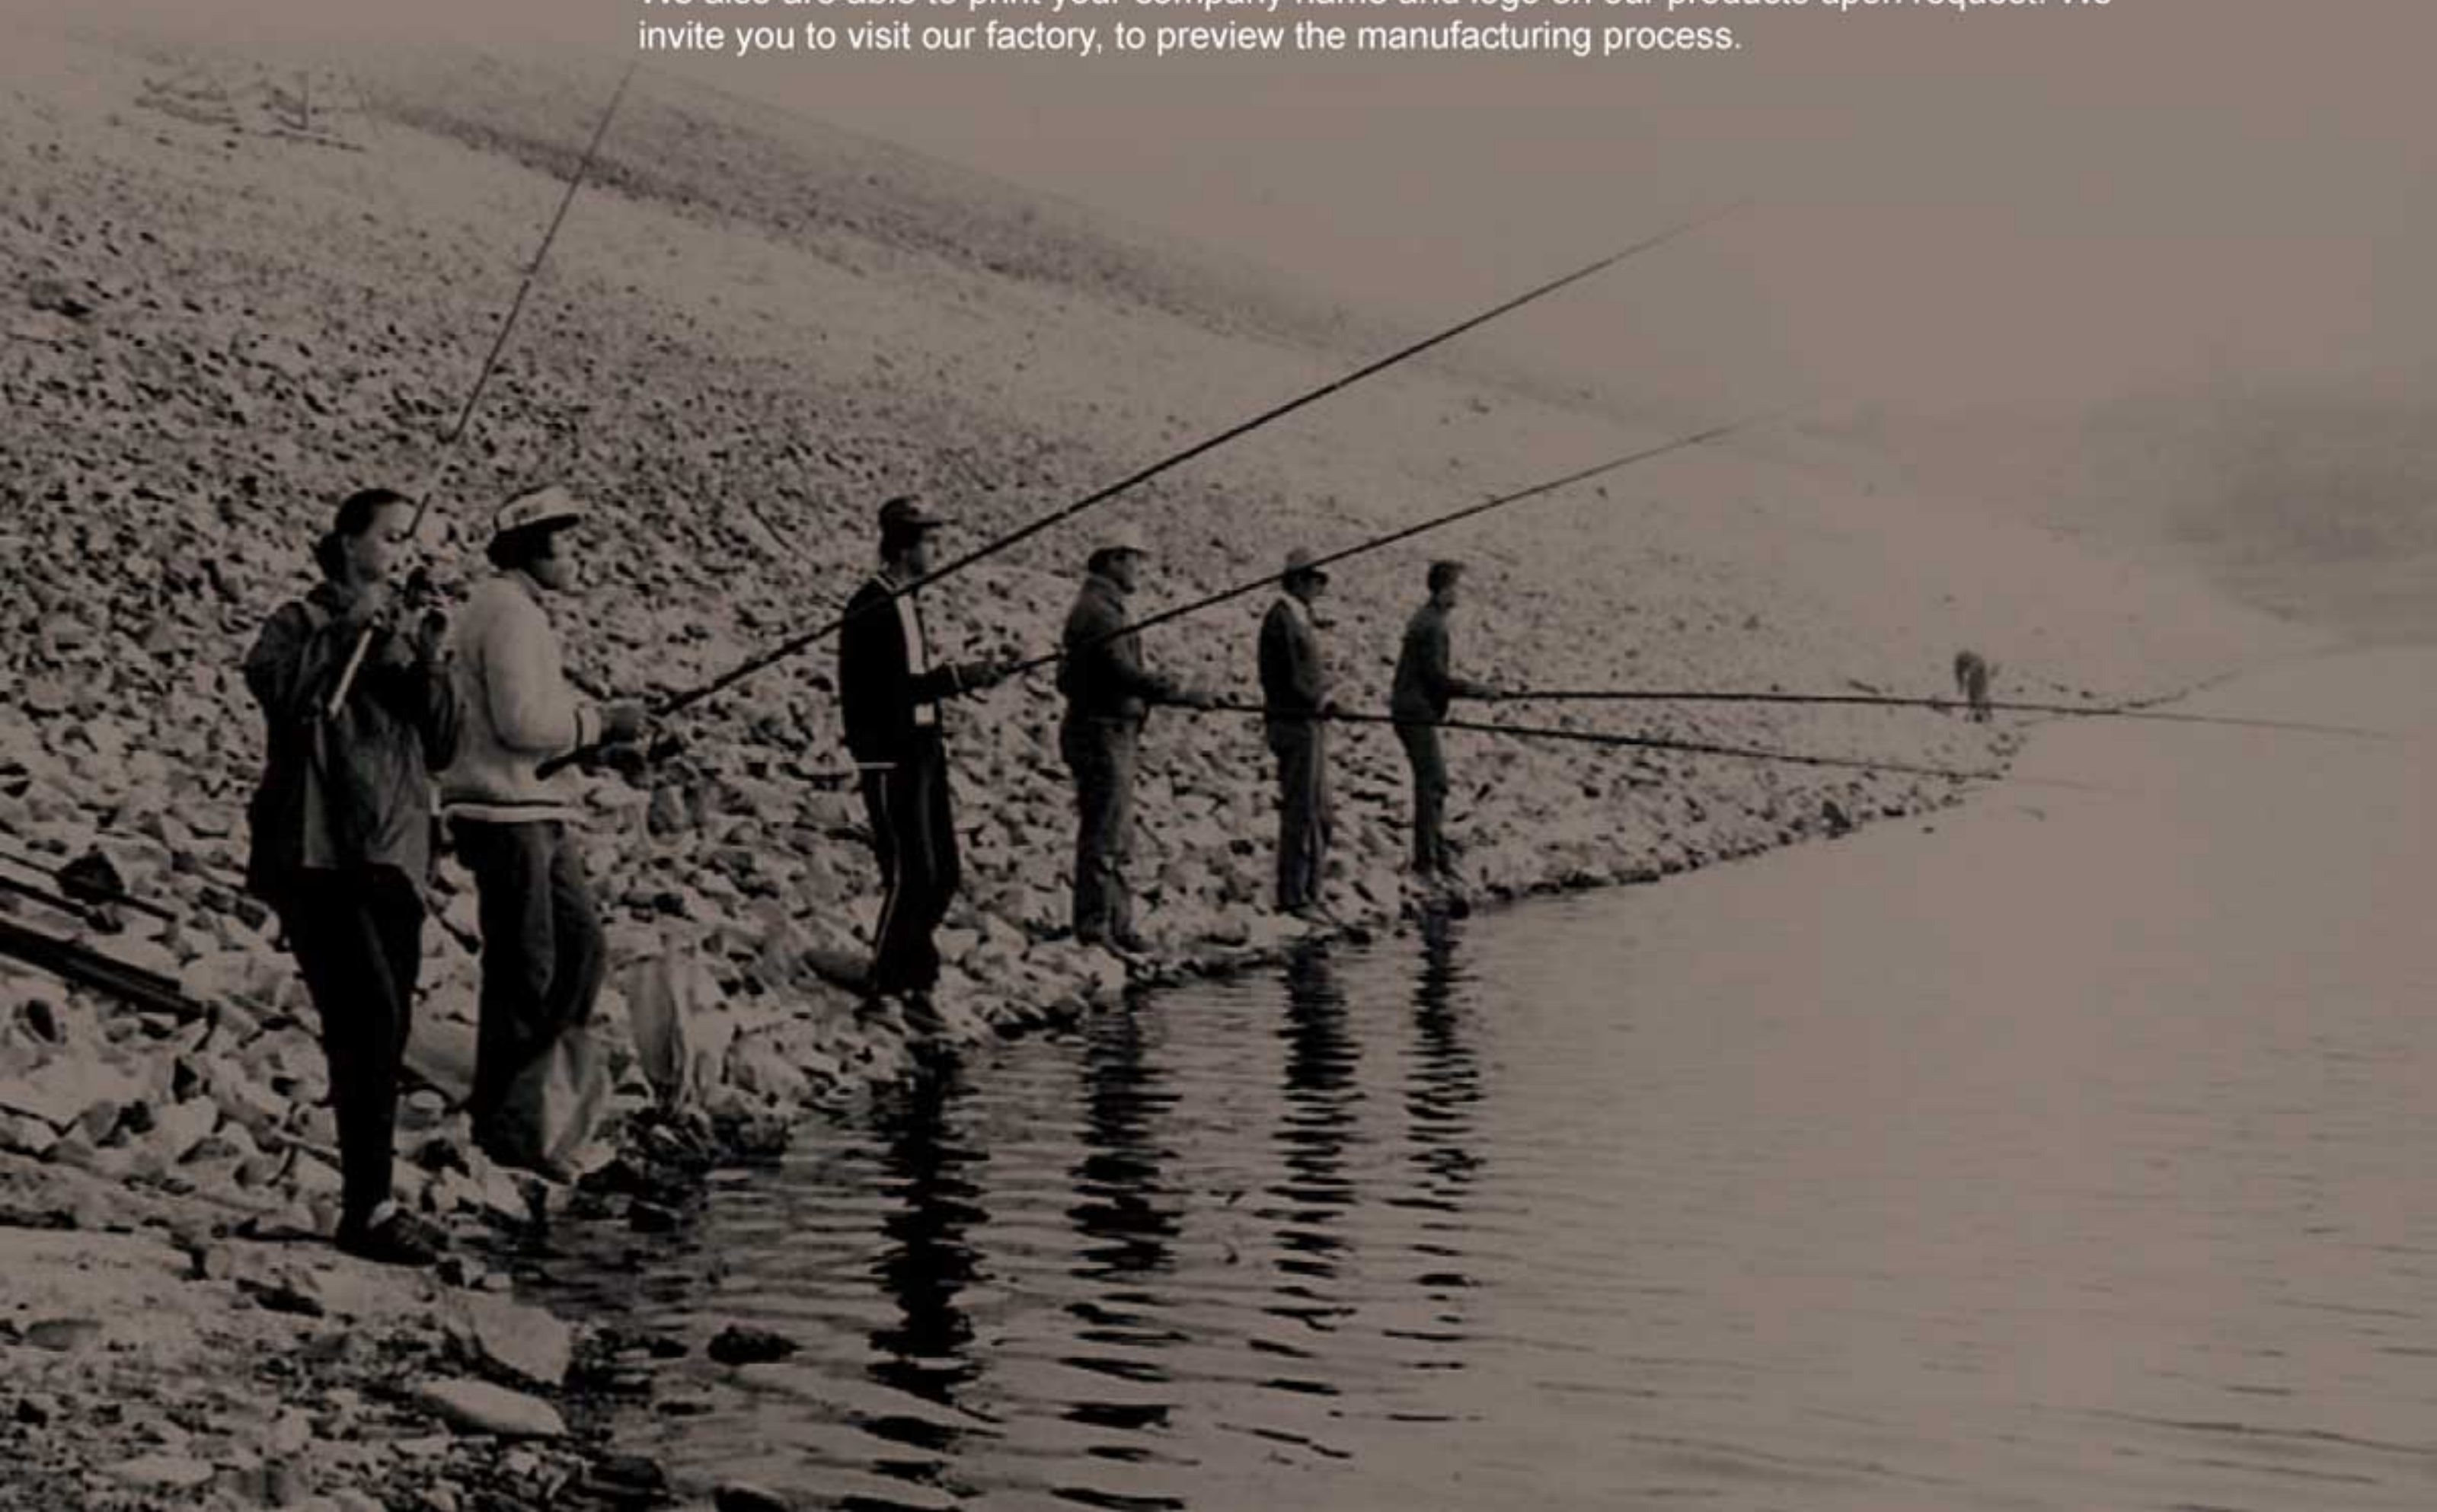

MOCHKOV's client base covers Italy, Germany, Holland, Spain, Greece, etc.

The steady growth of MOCHKOV is based upon the universal desire to always improve who we are and what we do, carrying with us the wisdom of the past and the healthy respect for the future. We are always looking for innovative ways to serve you.

THE GENUINE MANUFACTURE

Our business is engaged in a full manufacturing process. All of our products are made in our factory, closely controlled and quality tested by us, before reaching our customers and distributors.

We also are able to print your company name and logo on our products upon request. We invite you to visit our factory, to preview the manufacturing process.

Wagglers

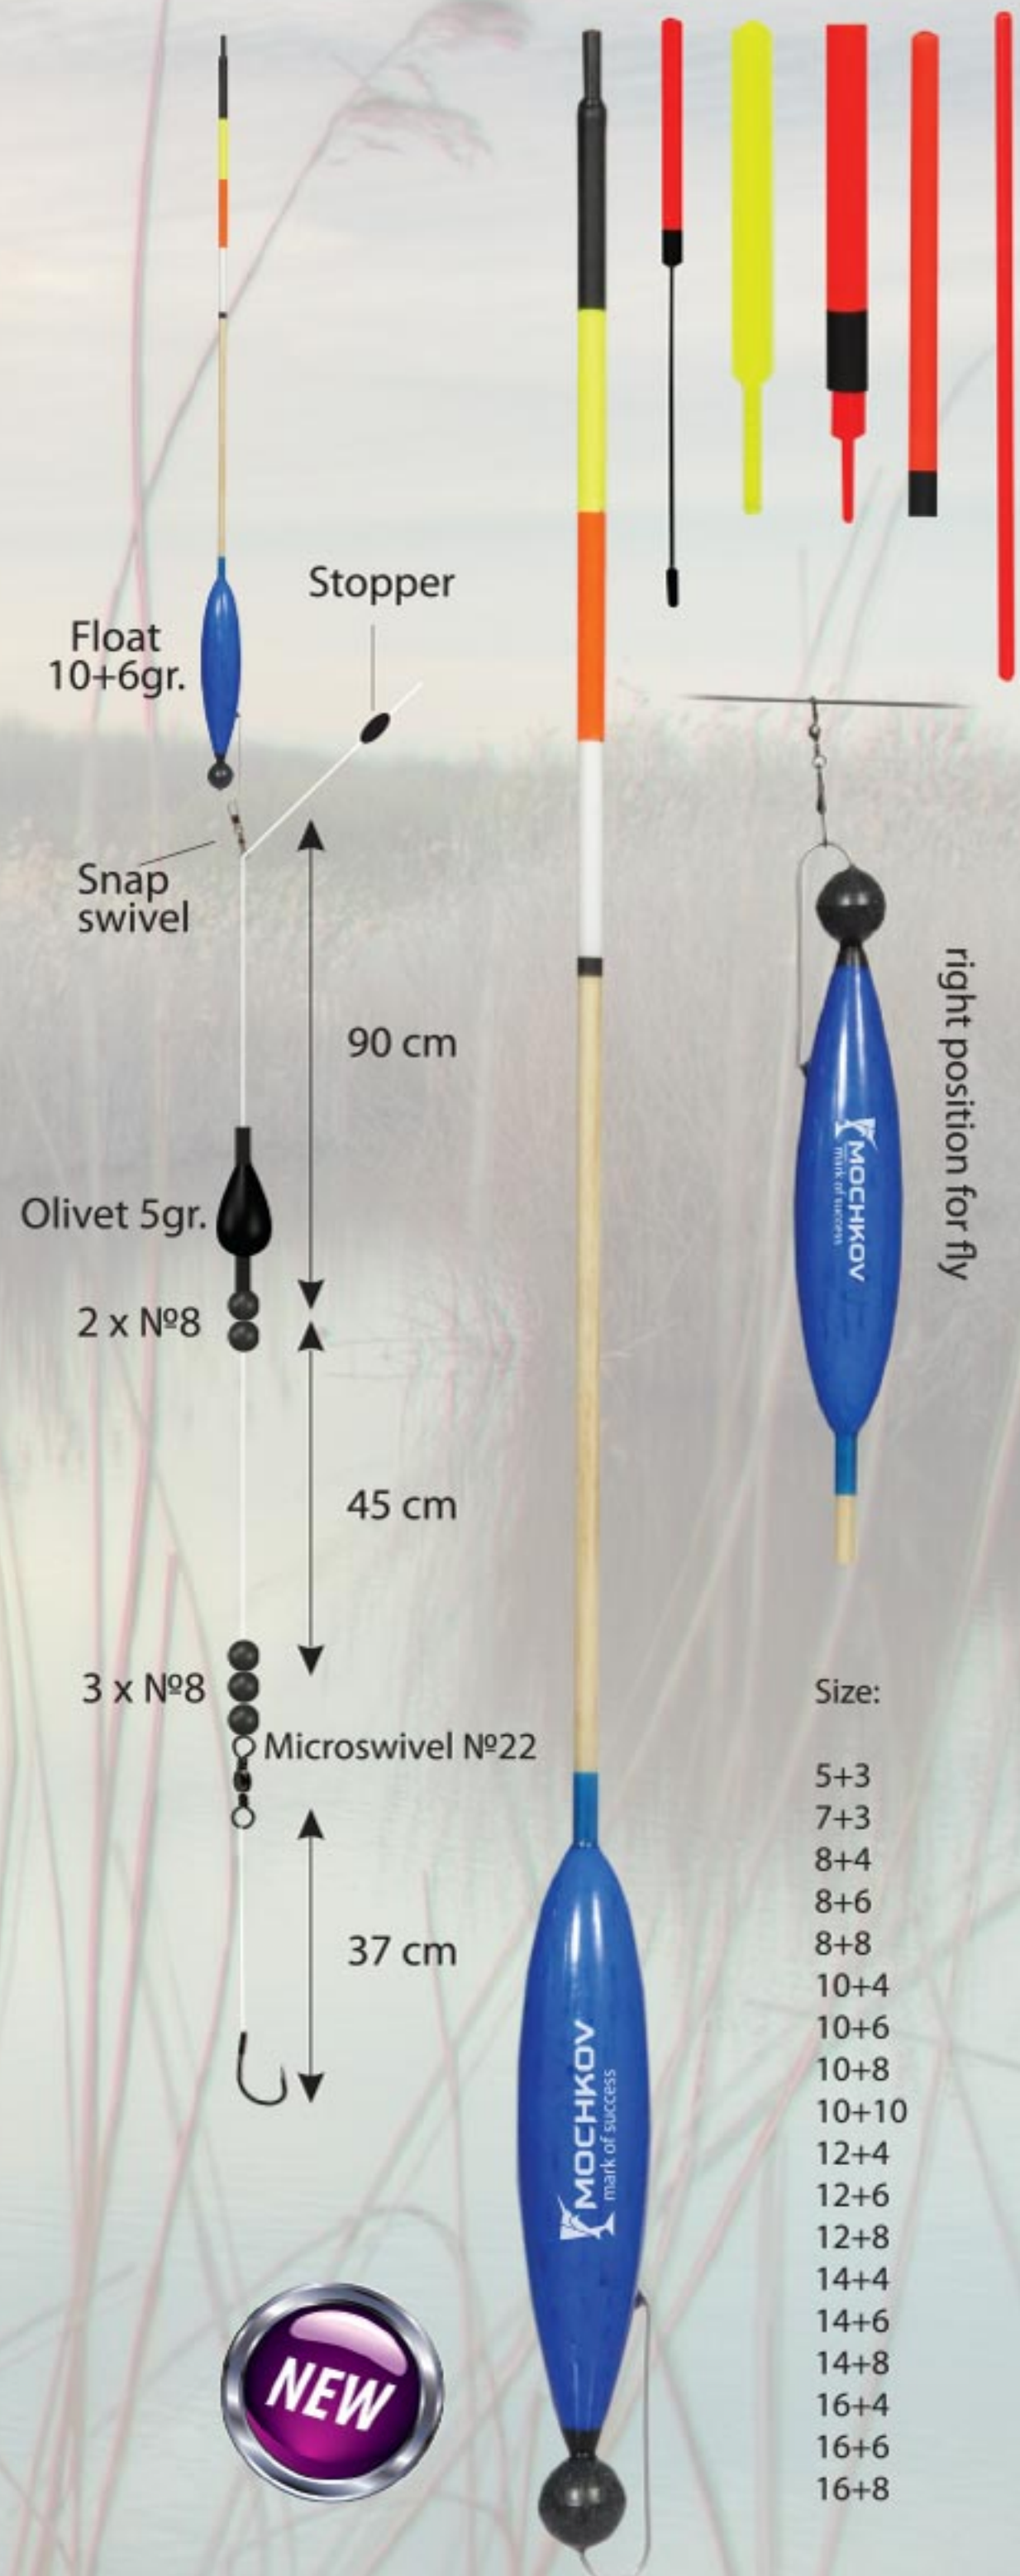

22 - 05

This float is created by famous German fisherman Michael Schloegel.

This anti-tangle waggler is made from balsa body and thin sarkanda quill with special variable tip holder adapter.

The float is with the short wire fixed on the body to keep always the float in the right position by casting.

The whole weight is outside of the body. This makes float very stable in stream and in windy weather.

22 - 01

Bream waggler with sarcanda stem with special variable tip holder adapter. We give 3 type tips for this waggler.

Size:
6gr (discs - 2g)
8gr (discs - 3.5g)
10gr (discs - 4.5g)
12gr (discs - 5.5g)
14gr (discs - 6g)
16gr (discs - 7g)

NEW

22 - 02

English float with sarcanda quill and body in balsa wood. The perfect shape of the body allows you a very precise casting. Loaded in brass you can put weight on the line from 1.0 or more gr, depending on the size thank to adjustable small discs. We are producing this float with three different kind of interchangeable antenna. Ideal for fishing in the middle of the surface and bottom fishing to catch different kind of breams.

Size:
6gr (discs - 2g)
8gr (discs - 3.5g)
10gr (discs - 4.5g)
12gr (discs - 5.5g)
14gr (discs - 6g)

22 - 07

Bream waggler with sarcanda stem with special variable tip holder adapter. We give 3 type tips for this waggler.

12.0
14.0
16.0

22 - 24

We developed this float for slider technic, it's made from balsa body and thin sarkanda quill with special variable tip holder adapter. The brass loading is designed to stabilise the float on the cast. The loaded weight in the body has minimal weight for different sizes. That's why this float is very sensitive. You can use this float for long distance in deep water. It's very stable on stream and windy weather. Also you can use small and big bait.

Size:

6.0

New Competition

These series competition floats are developed by our team competitors to help you for excellent results. These floats are made from top quality materials, first quality balsa wood, special developed water-resistance paints for floats with low friction in water

A range of floats where the line goes through the middle. They provide perfect control because the line leaves the body just where it meets the bristle. This system ensures the body of the float doesn't get damaged during the fight.

New Competition

Floats with the line through the body 15

15 - 10

In line drop-shaped float. This very strong float has a carbon stem and a hollow plastic high-visibility antenna. Ideal for carp fishing..

English Type Floats

These are typically English float. The float body is manufactured from selected balsa wood. They are perfectly suitable for both Match and spic rod fishing. They are especially good for spic rod fishing in windy weather due to their one point fixed body. (The line can be hold under the surface of water).

ACCESSORIES

We can produce all kind of weights for floats by your request.

37 - 01

Brass weight set for waggler in different sizes.

Size (g):
4.0/5.0/6.0/7.0
8.0/10.0/12.0/14.0
16.0/20.0/25.0/30.0

37 - 02

Metal weights for floats in different sizes, powder painted in different colors. Ideal for small and big floats

Size (g):
1.0/1.5/2.0/2.5/3.0
4.0/5.0/6.0/7.0/8.0
10.0/12.0/14.0/16.0

37 - 03

Light alu weights for floats in different sizes. Ideal for small floats

Size (g):
0.5/1.0/1.5/2.0

37 - 04

Brass base for waggler. Allows you to change your loadings faster.

Size (g):
2.0/4.0/6.0/8.0/10.0

37 - 07

Alu slider base. Small base piece which lets you switch a fixed waggler to a slider float. Packed with silicon float attachment.

Size (g):
Alu. - 2.5
Brass - 4.0

37 - 08

Alu slider base. Small base piece which lets you switch a fixed waggler to a slider float with swivel.

Size (g):
Alu. - 2.5
Brass - 4.0

37 - 05

Brass rings that let you adjust the loading on your waggler. Available in 4 sizes.

Size (g):
0.5/1.0/1.5/2.0

37 - 06

Alu bush for waggler with inner thread M3
